

RITE NOW @ ROP

Down on the Farm Day

At Cypress Creek, we strongly encourage family involvement as a key part of supporting healthy relationships and successful treatment outcomes. We believe that healing happens best when families are engaged, connected, and supported. Our recent Family Day event called “Down on the Farm” brought almost 150 family members who traveled hours to spend quality time with their loved one, while our dedicated team of case managers and therapists were available to provide support and conduct sessions as needed during the event.

The day was filled with lots of hugs, smiles and heartfelt moments as families shared a meal prepared by our kitchen staff followed by quality time together. Each family also received a family photo for a keepsake.

By collaborating closely with families to ensure their loved ones receive effective and individualized care we aim to strengthen the bonds between youth and their loved ones, while also promoting open, honest, and healthy communication. Together, we are creating a community where families feel empowered, informed, and united in supporting their youth on the path to success.
